

**Important changes for Intrastat statistical declaration  
starting with the reporting month January 2025**

➤ **Modified nomenclatures:**

Version 2025 of the **Combined Nomenclature** contains 49 new codes at 8-digit level while 34 codes at 8-digit level were removed from the version 2024 of the CN. Total number of CN codes at 8-digit level is 9784. Combined Nomenclature is available in electronic format on the website [www.intrastat.ro](http://www.intrastat.ro).

➤ **Modified Intrastat offline application**

Drafting the Intrastat Declaration for year 2025 will be done using the offline Intrastat Application 2025 version, that we kindly ask you to install on your computer starting with the 1st of February 2025. By installing the 2025 offline Intrastat Application, the 2024 version will be automatically uninstalled, but not the related Intrastat declarations and documentation (guides, manuals, nomenclatures).

**ATTENTION!** The 2025 offline Intrastat Application has set by default 2024 version of Combined Nomenclature. **THUS**, in order to create declarations for the year 2025 after installing the 2025 offline Intrastat Application, you must upload the new Combined Nomenclature 2025 (CN\_2025.xml) by using the "Import" function from the menu "Actions / Nomenclatures" (see chapter 1.3.5 - *Importing a new version of a nomenclature* from the „User Guide for Intrastat offline application 2025” – Version 1).

Please give a special attention to the selection of reference year since the goods nomenclature (CN8 nomenclature), is subject to change, thus making necessary yearly updating in the Intrastat Applications. As a consequence, the 2025 version of Combined Nomenclature differs from those applied in used the previous year.

After installing the 2025 version of the offline application, it is necessary to run the procedure of import of declarations that have been created for 2024 using the 2024 version of Intrastat offline application, in order to be able to visualize / revise them, if necessary. The import procedure can be done using the menu „Declarations administration” (see chapter 1.3.4. - *Importing and saving a previously created declaration*, from the “User guide for offline application 2025” – Version 1).

The Intrastat offline application version 2025 can be also used to create or review Intrastat declaration for 2024.

**ATTENTION!** to review or create a NEW declaration for 2024, after installing the 2025 version of Intrastat offline application and the import of nomenclatures for 2025, it is necessary to follow the following steps in order to use the nomenclatures in force for 2024:

**First step: Eliminate the version 2025 of Combined Nomenclature as follows:** in the menu „Actions/Nomenclatures” select the CN8 2025 version, then use the „Eliminate” button from the same window (Figure 1). This step is necessary to activate the CN8 2024 Version.

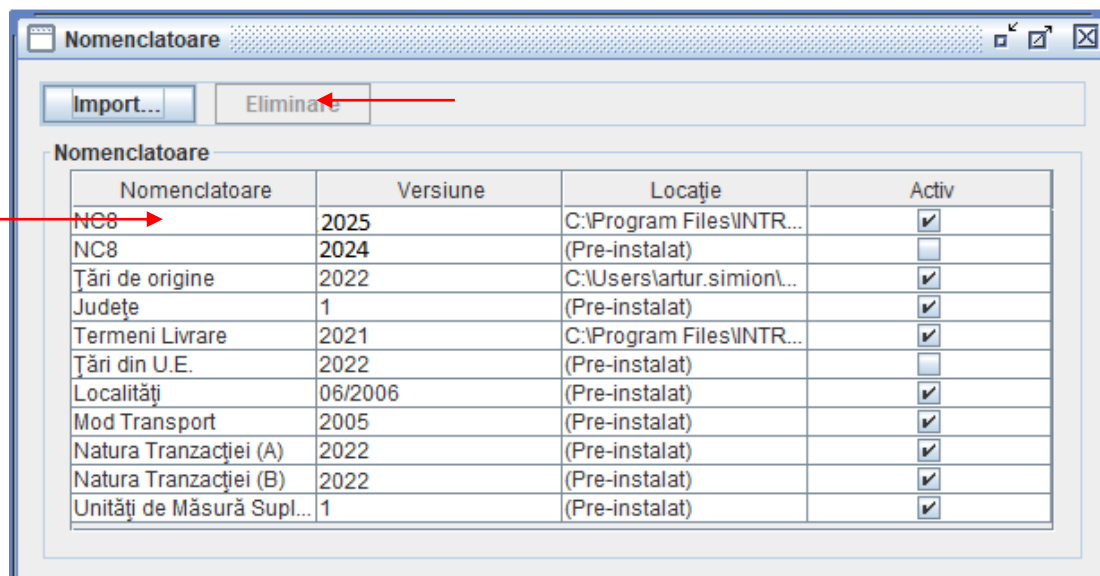

Figure 1. Nomenclatures Administration - eliminate CN version 2025

**Step 2: Review or create a „New” Intrastat declaration for 2024** (please pay special attention when selecting the reference period!!!)

**Step 3: Return to the 2025 versions of the Combined Nomenclature (to create Intrastat Declarations for 2025)**

This will be done through the menu „Actions/Nomenclature”, where “import” button must be used and then select **CN8\_2025.xml** file from „Documentation” directory, subdirectory of the working directory. The default working directory is set to *C:\Program Files (x86)\INTRASTAT*. After running this procedures the 2025 Nomenclature version will be automatically activated.
